

Year Round Brews

Pack Pilsner

- A pale yellow/golden lager. Light-bodied and refreshingly dry with a hint of malt combined with soft and rounded bitterness and spice flavor from Noble type hops.

Chancellor’s Choice IPA

- Our award-winning English IPA is a medium-bodied orange-colored ale, featuring citrus and pine notes from American Cascade hops. Its relatively mild bitterness is balanced with a subtle maltiness.

Brickyard Red

- Light amber colors are accentuated with dark hues of red. This light-bodied ale has a moderate caramel malt flavor with initial sweetness and a roasted, dry smooth finish.

Ma Blonde Do’r (Golden Blonde)

- Our “blonde girlfriend,” describes the color of this ale. A clean, medium-bodied beer with a delicate balance of subtle fruit characters. Lightly hopped, the subdued maltiness throughout leads to a pleasantly refreshing tang in the finish.

Schaub Schwarzbier

- This dark lager is a German favorite. Deep brown/black with ruby highlights, this beer is crisp with low levels of residual sweetness. Hints of coffee and dark chocolate are swirled into this light-bodied brew.

The NCSU brewery doesn’t use adjuncts, only the highest quality malted barley, hops, water and yeast.

At NCSU, we specialize in old world lager production. Lager brewing provides unique challenges to the brewing process and we think this classic style is being lost in American craft brews. At NC State, we strive to be leaders in the art of lagering.

Seasonal Brews

Wolf-toberfest (Oktoberfest) *Fall*

- A full-bodied lager to bring in the fall season. Sweet lingering caramel flavor and aroma, balanced with moderate bitterness and a nice seasonal orange hue. Prost!

Pullen Porter *Winter*

- A substantial English dark brown ale with ruby highlights. Both English and American hops produce a pleasant bitterness to complement the predominately malt and chocolate flavor, with a subtle roasted character.

Graduator Maibock *Spring*

- A relatively strong, pale and malty lager type brew associated with the month of May. Medium-bodied, higher alcohol with dominant flavors of European malts and just a hint of bitterness.

Wolfpack Wheat *Summer*

- A light golden, hazy beer that’s perfect when served with an orange slice. Features an aromatic head, coriander and orangey-citrus fruitiness. Pleasantly sweet with low hop bitterness. Refreshing for the North Carolina summer heat!
